

HARMAN SINGH

B.Tech — Computer Science and Engineering — 2027

+91 8076618658 — Harman.singh.23cse@bmu.edu.in — [LinkedIn](#) — [GitHub](#)

Website: harmanxdev.fun

Education

B.Tech Computer Science and Engineering – BML Munjal University, Gurugram 2023 – 2027
Senior Secondary (PCM) – RPS International School, Gurugram 2023

Skills

Languages: JavaScript, Python, C/C++, SQL

Frameworks: React.js, Next.js, Node.js, Express.js, Django, React Native, Tailwind CSS, Prisma ORM, Shopify

Databases & Tools: PostgreSQL, MongoDB, SQLite, Supabase, Git, Docker, AWS EC2, Azure, Terminus, Vercel

Concepts: RESTful APIs, API Integration, Responsive UI/UX, CI/CD Pipelines, Cloud Deployment

Projects

Hlty.care – Wellness Platform 2026 — [GitHub](#) — [Live](#)
Next.js, Shopify, Tailwind CSS

- Developed role-based platform with segmented journeys for parents, clinicians, and educators.
- Built Shopify-integrated workflows for instant resource delivery and automated user onboarding.

SkyForge System Solutions – Frontend Application 2026 — [GitHub](#) — [Live](#)
React, Tailwind CSS, JavaScript

- Engineered responsive UI with reusable React components and efficient client-side routing.
- Contributed to a real company website by developing and integrating production-ready web pages.

QuickQR – Scalable Backend 2026 — [GitHub](#) — [Live](#)
Node.js, Express, PostgreSQL, Prisma ORM

- Designed normalized PostgreSQL schema and handled migrations using Prisma ORM.
- Developed secure REST APIs with validation, optimized queries, and scalable architecture.

Instalearn – AI Learning Platform 2026 — [GitHub](#) — [Live](#)
Next.js, Django, React Native

- Built multi-platform system with web dashboard, mobile app, and Django backend services.
- Implemented AI-driven content generation, quizzes, and analytics for learning workflows.

Internship / Experience

SkyForge System Solutions – Full Stack Engineer Mar 2026 – Apr 2026

- Developed web applications with responsive UI and integrated RESTful APIs.
- Deployed apps on Azure servers via Terminus and used Git workflows in production environments.

Yugasa Software Labs – Web Developer Intern Jul 2025 – Aug 2025

- Developed frontend components and integrated backend APIs using Node.js and PHP.
- Assisted in debugging, testing, and deployment of web applications.

Achievements & Responsibilities

- Deployed personal portfolio using Docker, CI/CD, and AWS EC2.
- Active GitHub contributor demonstrating end-to-end full-stack development practices.
- Google Cloud certified in Generative AI, Large Language Models, and Prompt Design (Vertex AI).
- Microsoft certified in Generative AI and AI Agent fundamentals, and completed Anthropic Claude Code 101 certification.
